ALL THE LATEST UPDATES FROM DOMINO IN ONE PLACE!

What is Domino?

DOMINO is a Horizon Europe funded research project aiming to attribute health benefits to traditional fermented foods, and to develop novel plant-based fermented foods which address the changing societal demands for healthier and more sustainable nourishment.

The project will last 5 years (2023-2028) and gathers 19 partners from 10 countries, in a collaboration between top universities and research centres, as well as expert non-profit organisations and the private sector.

More about the project

Why Fermented Foods?

Food fermentation is an ancient practice with the potential to address consumers' demand for healthier and sustainable food.
